

HAWKER BEECHCRAFT PREMIER 1/1A

LINE MAINTENANCE

The line maintenance course is a short 5-day course to get technicians to understand the aircraft systems, servicing, and practical know-how to maintain the aircraft properly. If your operation cannot afford the time for a technician to attend a 2 week initial, this course may fit into your needs well. Moderate troubleshooting is stressed. Actual hands-on practices will also be conducted on the real aircraft in order to ensure a complete understanding of aircraft systems and 'real-world' maintenance practices..

OTHER AVAILABLE COURSES:

- Maintenance Line (40 hours)
- Electrical Interface (40 hours)
- Refresher / Aircraft Difference (40 hours)
- Engine Run (16 / 8 hours)

CURRICULUM (40 hours)

SUBJECT (ATA)	HOURS
Aircraft General and Structure	1
A.C. / D.C. Electrical System	5
Warning / Master Caution System	2
Hydraulic Power and Distribution	3
Landing Gear	3
Flight Controls	2
