

BOMBARDIER

Bombardier BD-700 Series (RRD BR700-710) Aircraft

C Theoretical Maintenance

This 5-day EASA C Theoretical maintenance training course covers all current EASA approval requirements for the Bombardier BD-700 Series (RRD BR700-710) aircraft type. The course covers all applicable ATA chapters to address aircraft systems' Theoretical, identification and operation.

The theoretical course employs an interactive approach with instruction to the student. Upon successful completion, participants will be able to define the general layout of the aircraft's major systems, identify maintenance practices, special tooling, test equipment and safety precautions unique to the Bombardier BD-700 Series (RRD BR700-710) type aircraft.
