

LEONARDO

AW139 Aircraft

Line Maintenance

The line maintenance course is a condensed, 5-day session. It enables technicians to understand aircraft systems and servicing with an emphasis on practical experience to build aircraft maintenance skills.

Moderate troubleshooting is stressed and reinforced with hands-on sessions on available aircraft. Active student participation provides a better understanding of aircraft systems, leading to effective and efficient maintenance practices.

For operations with technician scheduling and cost limitations, this AW139 class creates a highly productive solution.

**Course Length
5 Days (40 Hours)**

FAA IA Approval Code:

C-IND-IM-180417-K-010-005

Other GLOBALJET courses available for your AW139:
