AIRPLANES-0001 THRU -0172
19.23 FEET
(5.86 METERS)
AIRPLANES-0173 AND ON
18.97 FEET
(5.78 METERS)

This course provides designated technicians with the necessary procedures and practices to perform a successful engine run session.

Our course combines both classroom theoretical instruction with practical, applied interaction with the facility's aircraft.

This economical alternative to costly, limited-access simulator training will enable the technicians to quickly become productive with valuable knowledge in this critical area.

() A 2-day course is necessary for those students who have never taken the GLOBALJET Initial level course for the aircraft.*

TOPIC	Hrs
