

FALCON

Falcon 2000 Aircraft

Initial Maintenance

Technical specifications and details for the Falcon 2000 aircraft, including performance metrics and configuration options.

This initial-level maintenance training course covers all applicable ATA chapters, addressing aircraft systems' theory, operation, inspection, servicing, and troubleshooting. Using an interactive approach of instruction, hands-on sessions will be conducted to enhance and expand on classroom training. The course examines LRU troubleshooting from a theoretical and functional perspective.

This comprehensive Falcon 2000 course is the ideal way to have technicians productively respond to transitions within the fleet.
