

FALCON

Falcon 900EX Aircraft

Electrical Interface Maintenance

This course is a combination of refresher, in-depth troubleshooting practices, and tracing of wiring diagrams. GLOBALJET Services employs a “white glove” approach where the majority of investigative work can be conducted without using tools. Troubleshooting is performed from the cockpit level using indication messages, support documentation, and wiring diagrams.

This is an intensive session with active classroom participation and considered an essential course for all proactive technicians familiar with the Falcon 900EX.

**Course Length
5 Days (40 Hours)**

FAA IA Approval Code:

C-IND-IM-151217-K-006-002
