

GULFSTREAM

**Course Length
2 Days (16 Hours)**

Gulfstream GII/GIII Aircraft

Engine Run Maintenance Course

FAA IA Approval Code:

C-IND-IM-130607-K-006-116

This course provides designated technicians with the necessary procedures and practices to perform a successful engine run session.

Our course combines both classroom theoretical instruction with practical, applied interaction with the facility's aircraft.

This economical alternative to costly, limited-access simulator training will enable the technicians to quickly become productive with valuable knowledge in this critical area.

(A 2-day course is necessary for those students who have never taken the GLOBALJET Initial level course for the aircraft.*

Other GLOBALJET courses available for your Gulfstream GII/GIII:

FAA Accepted

Gulfstream GII/GIII Gen-Fam

Gulfstream GII/GIII Line

Gulfstream GII/GIII Refresher

Gulfstream GII/GIII Electrical Interface
