| Cockpit Checklist Operation | 0.5 |
| Review | 1.0 |
| TOTAL | 16 |

This course provides designated technicians with the necessary procedures and practices to perform a successful engine run session.

Our course combines both classroom theoretical instruction with practical, applied interaction with the facility's aircraft.

This economical alternative to costly, limited-access simulator training will enable the technicians to quickly become productive with valuable knowledge in this critical area.

() A 2-day course is necessary for those students who have never taken the GLOBALJET Initial level course for the aircraft.*

Other GLOBALJET courses available for your Hawker 700/800:

FAA Accepted

Hawker 700/800 Gen-Fam

Hawker 700/800 Line

Hawker 700/800 Refresher

Hawker 700/800 Electrical Interface
