

# BEECHCRAFT

**Factory Authorized Training Provider**

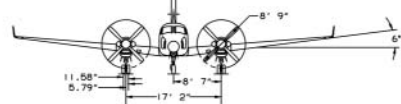

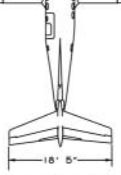

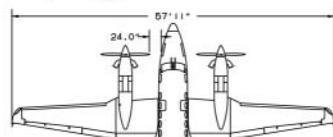

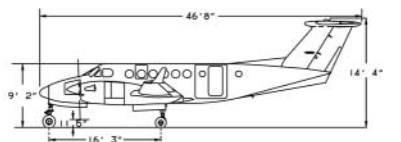

## King Air 300 to 200

### Aircraft Differences Maintenance

**Course Length  
3 Days (24 Hours)**

FAA IA Approval Code:

C-IND-IM-120306-K-006-005

This course offers a sharply focused, detail-oriented comparison of similar aircraft models that require separate type ratings. The focus is on the systems that are significantly different between two aircraft models that otherwise share a large portion of other main systems in common.

The emphasis is on building upon what the student already knows about a particular aircraft model and filling the gaps relating to the new model.

This comprehensive class is the ideal way to introduce technicians to the aircraft within the fleet.
