Falcon 900 (Honeywell TFE731) to  
Falcon 900 C/EX (Honeywell TFE731)  
B1+B2 Theoretical Differences*

### B1+B2 Practical Differences Maintenance

This UAE GCAA Differences course offers a sharply focused, detail-oriented comparison of similar aircraft models that require separate type ratings. The focus is on the systems that are significantly different between two aircraft models that otherwise share a large portion of other main systems in common.

The emphasis is on building upon what the student already knows about a particular aircraft model and filling the gaps relating to the new model.

B1+B2 Practical differences training focuses on the applied learning aspect on a wide range of airframe, engine, and avionics topics. It is intended as a continuation and enhancement of a quality B1 Theoretical course.
