TOPIC	HRs
Day 1.....	8
Background	
Corrosion Theory	
Forms of Corrosion	
Day 2.....	8
Effects of Corrosion	
Corrosion Prone Areas and	
Preventative Maintenance	
Inspection Requirements	
<u>Corrosion Removal Techniques</u>	
TOTAL.....	16

This training includes the theory, causes, and characteristics of corrosion; identification of metals and corrosion products; passivation methods for metal surfaces for corrosion prevention; and preparation and application of maintenance coatings.

The course addresses corrosion removal by chemical and mechanical techniques, plus a review of nondestructive inspection methods

A 2-hour refresher class is available to support specific industry events, such as FAA-recognized IA renewal seminars.
