FAA-accepted 16 hours of instruction to satisfy requirements indicated in 14 CFR Part 145 for employees, supervisors, and managers. Attendees will become familiar with good shop safety practices in compliance with OSHA and EPA requirements. This course will examine, discuss, and review the following topics:

- Requirements of OSHA and EPA programs and their reporting mandates
- HazMat and HazCom programs
- General good practices and shop safety
- Non-pollutant work practices that meet EPA requirements

The OSHA/EPA course is designed specifically for aviation professionals and their individual needs.
