Falcon 10/100 Initial Maintenance Course with Honeywell TFE731 engines Aircraft

TC Approval Number:

2008-08-7280

**Transport
Canada**

Initial Maintenance

This initial-level maintenance training course covers all applicable ATA chapters, addressing aircraft systems' theory, operation, inspection, servicing, and troubleshooting. Using an interactive approach of instruction, hands-on sessions will be conducted to enhance and expand on classroom training. The course examines LRU troubleshooting from a theoretical and functional perspective.

This comprehensive Falcon 10/100 Initial Maintenance with Honeywell TFE731 engines course is the ideal way to have technicians productively respond to transitions within the fleet.
