

FALCON

Falcon 900EX Initial Maintenance Course with TFE 731-60 series engines Aircraft

Initial Maintenance

This initial-level maintenance training course covers all applicable ATA chapters, addressing aircraft systems' theory, operation, inspection, servicing, and troubleshooting. Using an interactive approach of instruction, hands-on sessions will be conducted to enhance and expand on classroom training. The course examines LRU troubleshooting from a theoretical and functional perspective.

This comprehensive Falcon 900EX Initial Maintenance with TFE 731-60 series engines course is the ideal way to have technicians productively respond to transitions within the fleet.
